2 Key Projects

Project 1

Preventing and reducing natural disasters by the combination of self-help, mutual assistance, and public assistance

We aim to create a safe and secure city where all human lives are protected in case of a natural disaster.

Project 2

Creating new hubs of local communities

We foster resident's associations, promote multi-generational interaction, support people who are actively involved in local affairs, connect groups and individuals to make a network, and aim to create places where people from various communities can gather and interact with each other.
